

## **During Embargo, UPRR Oakland Facility Opens Temporarily For All Sizes Of Equipment Including 48' and 53', Effective May 13, 2008**

Dear Valued Customer,

While the Lathrop portion of the UPRR's Northern California embargo continues (see Stack Facts 1014 and 1016), the UPRR's Oakland facility, which is normally restricted to small box shipments, will be open on a temporary basis to all sizes of equipment, including 48' and 53' containers. This temporary routing applies to Chicago and Chicago gateway origins and destinations previously handled through the Lathrop ramp. Existing rates to/from Lathrop will apply.

The temporary routing becomes effective May 13, 2008. When the situation at Lathrop is resolved, this temporary change will be cancelled and we will advise on the closure date.

Please contact your Pacer Stacktrain Business Development Representative for the latest updates regarding this situation.

We appreciate your business.
