

New Tacoma South Terminal City Name Code

Dear Valued Customer:

In reference to Stack Facts No. 1114, Pacer Stacktrain has initiated updating existing Pacer Special Quotes (PSQ) to reflect the newly assigned City Code in customer rate downloads and future rate confirmations as noted in the table below.

Furthermore, with respect to Stack Facts No. 1124, EDI 404 F9* and D9* message segments must appear as either of the two EDI codes designated in the table below.

	EDI Code	Pacer's City Code
UPRR Ramp Location	(Enter into rail billing in *F9 or *D9)	(For info only, do not enter into rail billing)
Tacoma South Terminal	TACOMA or TacSim	TCM

Please note that Pacer's City Code is for Pacer's internal use and is provided only for reference. The City Code should not be entered into the EDI 404 message.

Active Westbound PSQs have been updated in accordance with this operational change and are available via customer rate download.

Active Eastbound PSQs will be updated the week of February 2. Customers should regularly review their downloads as we complete this input project.

If you have questions regarding this announcement, please consult your Pacer Stacktrain Business Development or Pricing Representative.

We appreciate your business.
