Pacer Stacktrain Announcement

To all Customers:

The following is a notice from the Canadian National Railroad effective May 1, 2001.

Please advise all appropriate personnel, customers and drayage carriers of this announcement. If you have any questions, please contact your local Pacer Stacktrain representative.

Thank you for your continued support.

Gate Configuration Changes Effective May 1, 2001 at CN's Harvey, IL
(Chicago) Intermodal Terminal

Effective May 1, 2001, CN will be merging our separate terminals at Harvey, IL (currently known as "Moyers" on the former IC and "Gateway" on the CN). The new joint facility will be referred to as "Moyers Intermodal Terminal (MIT)."

At the same time, we will be changing traffic patterns for the terminal. Drivers will now be required to enter MIT at 15840 West Avenue (formerly "Gateway") and depart at 16800 Center Street (formerly "Moyers"). All drivers must stop at the gate upon entrance and check-in as well as stop at the gate upon exit and check-out. This will include drivers exiting with empty chassis or "bob-tails."

Please direct any questions to the intermodal terminal staff at the following phone numbers: (708) 957-6590 or (708) 957-6552.

***** Best Regards,
CN International Markets CSC/WPG
