

# PACER STACKTRAIN

NEWS ALERT

August 13, 2001  
Electronic Bulletin No. 225

## **EMPTY CAPACITY PROGRAM FOR SOUTHERN CALIFORNIA**

Pacer Stacktrain is again expecting a strong demand for domestic containers in Southern California to meet this year's peak season shipping requirements. Due to this strong demand we will institute our Empty Capacity Program in an effort to meet as many of the capacity needs during this period as we possibly can.

Effective, Wednesday August 15<sup>th</sup>, Pacer Stacktrain will implement our Empty Capacity Program for Southern California. All current, as well as future capacity in Los Angeles, will be offered under this program through the existing reservation process. Pacer will offer to the IMC this capacity on wheels at either Becker Yard or Container Care. Pacer Stacktrain will offer this available capacity to the IMC at a cost of \$300 per container regardless of size. Pacer Stacktrain will move available empty equipment from surplus locations to help support the demand and will continue as long as the demand warrants. There is no guarantee or volume commitment, as the program will be driven based on available capacity. This cost is subject to change in the future and we will provide a one-day advance notice of the effective date of changes in this cost. Billing of this equipment will be done weekly and will be based upon boxes actually pulled out of Becker Yard or Container Care against the container release number provided by our dispatch group from the fax authorization.

If you would like additional information on this program to support your equipment need please contact:
