RE: Winter Storm Alert

As another storm with heavy snowfall, high winds and sub-freezing temperatures bears down on the Mid-Atlantic and Northeast, Pacer Stacktrain is preparing for potential disrupted service and difficult terminal conditions. The full force of the storm is expected this evening and tomorrow. While neither terminal closures nor service curtailments are planned at this time, we do anticipate delays both in train and terminal operations in Maryland, Pennsylvania, New York and New Jersey.

The residual delays of this most recent storm should be expected through early next week.

We will update this message set as changes in the weather warrant.

If you have specific questions, please contact your local Pacer Stacktrain Customer Service Representative.
