Electronic Bulletin No. 500

RE: US Customs Requirements for Canadian Cargo Beginning May 13, 2004

Please note, effective Thursday, May 13, 2004, United States Customs requires the cargo value be declared for all cargo entering the US from Canada and exiting the US to Canada. For EDI submissions, this information would go in the

M12 segment, element #5. For our customers who fax this information, the true value of the cargo will be required just as all other required transborder information is now in order to complete your rail billing.

We appreciate your cooperation and compliance in advance of this new regulation.

Regards,
Pacer Stacktrain Rail Billing
