**Electronic Bulletin No. 576**  
**Re: Updated Information on our 53' Containers**

---

To our valued customers and draymen,

At Pacer Stacktrain, we are committed to providing our customers with the very best equipment in the industry. To that end, we are pleased to let you know that we continue to add more and more new 53' steel containers to our fleet.

In order to ensure that we maximize availability of these 53' containers, we must ask for your assistance in managing their movement throughout our system. Please note the following load destination guidelines:

**Pacer Stacktrain 53' 110" high-cube containers can NOT be loaded to the following destination ramps:**

- **Charleston, SC**
- **Miami, FL**
- **New Orleans, LA**
- **Savannah, GA**
- **St. Paul, MN**
- **Montreal, QC, CN**
- **Toronto, ON, CN**
- **All Mexico locations**

Our high-cube 53' containers with 110" doors are easily identified by their red corner posts and numbers starting with 88 (PACU 88xxxx).

Likewise, our standard 53' containers with 107" doors can NOT be loaded to the ramps noted above; with the exception that these smaller 107" high containers can be loaded to the Canada and Mexico locations.

Your attention to these details will help us increase the availability of these containers for all of our customers. If you have any questions, please contact your Business Development Representative or our Equipment Reservations department at 877-816-1810.

We appreciate your cooperation, and we appreciate your business.
