Re: Southeast to Mexico service discontinued

Dear Valued customer,

Effective Monday December 13, 2004, service from Memphis to Laredo and beyond to Mexico destinations will be discontinued.

Sadly, this discontinuance coincides with a UPRR decision to abolish the intermodal train service from the southeast to the Mexico market.

There are currently no alternatives available to support this service; however, Pacer Stacktrain will continue its efforts to develop a viable alternative in the near future. We will continue to service Mexico from many other origins throughout the United States.

We apologize for any inconvenience. If you have specific questions, please contact your Customer Service or Business Development representative.

Thank you. We appreciate your business.
