**Re: Canada Border Services Agency Requirements - Effective May 16, 2005**

---

Dear Valued Customer,

Effective May 16, 2005, the Canada Border Services Agency (CBSA) is implementing changes to the Reporting of Exported Goods Regulations effecting all rail shipments from (1) Canada to Mexico; and (2) Canada to US Ocean ports for export overseas. Under the new regulations the exporter must include in their rail billing the proof of report number assigned by CBSA for the shipment.

The CN has implemented waybill edits to require Export Declaration per the specifications above.

Please contact CBSA directly for complete information of the new regulations and related Customs D memorandum at [www.cbsa-asfc.gc.ca](http://www.cbsa-asfc.gc.ca) or call 1-800-461-9999 (English) or 1-800-959-2036 (French).

Pacer Stacktrain is fully capable of receiving and transmitting all of the required information in your EDI 404 billing and has instituted edit checks to ensure these requirements are fully met. Accordingly, incomplete billing will be suspended pending receipt of the required information. This may result in unnecessary delays for drivers delivering to origin ramps.

To facilitate timely processing of your billing please ensure that your EDI 404 contains all of the required information.
