Re: Eastbound Lane Opportunities

Dear Valued Customer,

Pacer Stacktrain continues to add new service origins and destinations, in an effort to serve you better. Of course, key aspects of consistent service are lane density and lane balance, which directly affects equipment availability as well as service speed and reliability. So we want to let you know about three key areas where Pacer Stacktrain is focusing on growing our lane density:

- Eastbound to Omaha NE / Council Bluffs
- Eastbound to Cleveland OH
- Eastbound to Kearny NJ / South Kearny
- Eastbound to Memphis TN

These lanes are currently providing good service times and reliability. And Pacer Stacktrain is offering very competitive pricing in an effort to grow the business in these lanes. So please contact your Business Development Representative or our Customer Support group regarding the opportunities in these lanes.

We appreciate your business.

Pacer Stacktrain
