Announcement re International Containers at UPRR Satellite Yard - Wolcott

Dear Valued Customer:

In an effort to accommodate for the growing needs of 20ft and 40ft chassis in Chicago, Pacer Stacktrain has implemented a policy to deck international containers at the UPRR satellite yard known as Wolcott. In addition, this process will allow for more availability of chassis for your incoming customer loads.

Any unit that has accrued more than 7 days of dwell time will be put to the ground. Effective June 12, customers will be charged for the lift back on the chassis in the amount of \$43.

Lift hours are from 0800-1630 M-F. Pacer Stacktrain will keep a pool of chassis at Wolcott. We have attached a chassis lift ticket form that can be faxed to 1-773-890-4815 for advance reservations.

Customers will receive a notice that their unit will be decked once the box has been at Wolcott for 5 days. You will also receive notification on any units that have been grounded after day 7. This will allow customers at least a 24 hour notification.

Please communicate this new process with your personnel, your customers and drayage carriers. Pacer Stacktrain is committed to working with you to make this a smooth transition. This policy will be in effect until further notice.
