To insure a smooth and continuous southbound move for loads which require Customs clearance in Mexico, it will be necessary to pre-clear Mexican Customs before a container is loaded onto the train at Norfolk Southern's Inman Terminal. Customs clearance for southbound moves will be performed by:

TCS - Transport Cargo Service, LLC
8514 El Gato Road
Laredo, TX 78045

Phone: 956-753-4603
Fax: 956-723-1540

Required documentation for pre-clearance should be faxed to the above fax number.

Shipments originating in Mexico will be checked to ensure that they are AMS compliant before they can be loaded onto a train bound for the U.S. Northbound rates are subject to equipment availability and/or street-turns made by IMCs. Empty equipment from northbound moves must be terminated at our Morgan Southern Container Yard in Atlanta and not at the NS Inman Terminal.

Please check our website for ramp information, business hours and schedules. We strongly encourage you to review our Mexico Guide posted on our website. It is a comprehensive downloadable document that provides instructions, helpful hints and examples of forms required for doing cross-border business.

Prior to moving your first load, we recommend you call our Customer Service Team in Laredo, TX to review Customs' requirements, important documentation such as the new Encargo Conferido form and other important border crossing processes, (phone in US: 956-724-9716, fax 956-724-5151, alejandro_rodriguez@pacerstack.com).
